

**NOVEMBER 3, 2020**

## **GENERAL ELECTION COVID PROTOCOL**

This notice serves to inform the Ellsburg residents of the precautions the Town Officers are taking to ensure a safe voting experience for our community members.

- StaticClean of Duluth has applied a two-step process to the town hall to mitigate and prevent contamination from germs, mold and viruses which includes COVID-19.
- We have added air purifiers to the town hall.
- We have hand sanitizer and masks at the entrance to the town hall.
- We ordered new portable voting booths and will space them to ensure social distancing.
- We will have additional staff on-hand to monitor inside traffic for proper distancing.
- The additional staff will be available for those wishing to vote from their vehicle instead of coming into the hall.
