

ELLSBURG TOWNSHIP - ITEMS FOR BID

Due to the new air exchange installed at the Melrude Town Hall we no longer have a use for the air purifiers purchased in 2020 so we are putting them both up for bid.

- Each unit will be awarded to the high bidder
- Each unit comes with extra filters
- Specify which unit you are interested in when you place your bid
- Both units are offered as-is, they can't be returned to the township once they are paid for and picked up.
- Checks only, no cash or credit cards will be accepted.

The bid process will open July 22, 2022 and close August 22, 2022.

Email your bid to ellsburgtownship@gmail.com no later than midnight on August 22, 2022 or you may bring your bid to the town hall on Tuesdays between 10:00 am and Noon.

Purchased in October 2020 for \$495.00

AIRDOCTOR 4-in-1 Air Purifier for Home and Large Rooms with UltraHEPA, Carbon & VOC Filters - Air Quality Sensor Automatically Adjusts Filtration! Removes Particles 100x Smaller Than HEPA Standard

Purchased in October 2020 for \$89.00

BISSELL MYair Air Purifier with High Efficiency and Carbon Filter for Small Room and Home, Quiet Air Cleaner for Allergens, Pets, Dust, Dander, Pollen, Smoke, Hair, Odors, Timer, 2780A

We also have an older window AC unit which will be given to the first interested party for **FREE**. Contact info as above, same dates apply, will be taken to the dump after August 22 if no one wants it.

It also is offered as-is and can't be returned once it is picked up. I have no information on the AC unit.

It worked well the summer of 2021 but has not been used since.
